TITLE OF INVENTION: INJECTION DEVICE					

TITLE OF INVENTION: INJECTION DEVICE

APPLN. TYPE	SMALL ENTITY	ISSUE FEE DUE	PUBLICATION FEE DUE	PREV. PAID ISSUE FEE	TOTAL FEE(S) DUE	DATE DUE
nonprovisional	NO	\$1510	\$300	\$0	\$1810	12/02/2009

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), to: Mail Mail Stop ISSUE FEE

Commissioner for Patents P.O. Box 1450 Alexandria, Virginia 22313-1450

or Fax (571)-273-2885

INSTRUCTIONS: This form should be used for transmitting the ISSUE FEE and PUBLICATION FEE (if required). Blocks 1 through 5 should be completed where

appropriate. Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)

(application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 289 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 289 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (http://pair.uspto.gov).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 (571)-272-4200.

DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bradley Knepper, Applicant's attorney, on 08/27/2009.

IN THE CLAIMS

Please amend the claims as follows:

1. (Currently Amended) An injection device comprising an outer housing inside which is located:

a barrel for holding a volume of a medicament;

a needle at one end of the barrel, the needle and barrel being such that at
least part of the needle is axially moveable in and out of the outer housing
but is biased to be normally wholly inside the housing;

a plunger, axially moveable within the barrel;

an inner housing <u>at least partially</u> intermediate the outer housing and <u>at least one</u> of the barrel and plunger; and

Art Unit: 3763

an energy source in communication with the inner housing,

Characterized in that wherein the inner housing is moveable by the energy source between three positions, namely:

a first position in which the inner housing has a plurality of radially flexible tags formed as part of the inner housing, wherein one or more of the radially flexible tags is are in communication with the barrel such that, in use, the plunger and the barrel are movable by the inner housing axially so as to move at least part of the needle out of the outer housing;

a second position in which one or more of the radially flexible tags <u>formed</u> as part of the inner housing is in communication with the plunger but not the barrel such that, in use, the plunger is movable axially into the barrel so as to expel medicament through the needle; and

a third position in which one or more of the radially flexible tags <u>formed as</u>

<u>part of the inner housing</u> is in communication with neither the plunger nor the

barrel such that, in use, the plunger and barrel are able to retract in order to

retract the needle into the outer housing.

29. (Currently Amended) An injection device comprising an outer housing inside which is located:

a barrel for holding a volume of a medicament;

a needle at one end of the barrel, the needle and barrel being such that at least part of the needle is axially moveable in and out of the outer housing but is biased to be normally wholly inside the housing;

a plunger, axially moveable within the barrel;

an inner housing intermediate <u>at least a portion of</u> the outer housing and <u>at least a portion of at least one of</u> the barrel and plunger; and an energy source in communication with the inner housing,

characterized in that wherein the inner housing is moveable by the energy

source between two positions, namely:

a first position in which the inner housing has one or more radially flexible tags formed as part of the inner housing, which are in communication with the barrel such that, in use, the plunger and the barrel are movable axially into the barrel to expel medicament through the needle;

a second position in which one or more of radially flexible tags <u>formed as</u> <u>part of on</u> the inner housing are in communication with neither the plunger nor the barrel such that, in use, the plunger and barrel are able to retract in order to retract the needle into the outer housing.

30. (Currently Amended) An injection device comprising an outer housing adapted to receive:

a barrel for holding a volume of a medicament;

Application/Control Number: 10/597,379

Art Unit: 3763

Page 5

a needle at one end of the barrel, the needle and barrel being such that at least part of the needle is axially moveable in and out of the outer housing but is biased to be normally wholly inside the housing; and

a plunger, axially moveable within the barrel, wherein the injection device further comprises:

an inner housing intermediate the housing and the barrel and plunger; and

an energy source in communication with the inner housing,

characterized in that wherein the inner housing is moveable by the energy

source between three positions, namely

a first position in which the inner housing has one or more radially flexible tags formed as part of the inner housing, which are in communication with the barrel such that, in use, the plunger and the barrel are movable axially so as to move at least part of the needle out of the outer housing;

a second position in which the inner housing has one or more of radially flexible tags formed as part of the inner housing are in communication with neither the plunger nor the barrel such that, in use, the plunger is movable axially into the barrel so as to expel medicament through the needle, and;

a third position in which the radially flexible tags [[on]] formed as part of the inner housing are in communication with neither the plunger nor the barrel such that, in use, the plunger and barrel are able to retract in order to retract the needle into the outer housing.

Art Unit: 3763

Allowable Subject Matter

2. Claims 1-31 are allowed over the prior art of record as filed in the 06/17/2009 reply and in this Office action.

The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art of record fails to disclose either single or in combination the claimed device of an injection device comprising a barrel, plunger, inner housing, and energy source, wherein the inner housing is movable between a first position, a second position and a third position involving a plurality of radially flexible tags formed as part of the inner housing as recited in the claims.

The closest prior art of record is: Crossman et al (U.S. Pat. 5,300,030); Bergens et al (U.S. Pat. 6,270,479 B1); Sakurai et al (U.S. Pat. 5,211,625); Haber et al (U.S. Pat. 5,634,906); Bechtold et al (U.S. Pat. 5,042,977); and Frezza (U.S. Pat. 5,779,677).

Regarding claim 1, 20 and 30, the closest prior art of record fails to teach among all the limitations or render obvious a plurality of radially flexible tags *formed as part of the inner housing*, wherein the radially flexible tags are in communication with the barrel (claim 1, position 1; claim 30, position 1); the plunger but not the barrel (claim 1, position 2; claim 29, position 1; claim 30, position 2); and neither the plunger nor the barrel (claim 1, position 3; claim 29, position 2; claim 30, position 3).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3763

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SCOTT MEDWAY whose telephone number is (571) 270-3656. The examiner can normally be reached on Monday through Friday, 7:30 AM to 5:00 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nicholas Lucchesi can be reached on (571) 272-4977. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
